King Alfred

About Me

- I am a District Councillor serving Moor ward on The Levels, with an active interest in education, economic regeneration, and the environment.
- My passion for education and its ability to change lives and societies stems from having taught secondary school students, adult learners, excluded students, and category B prisoners. This is where I see myself having the greatest positive impact as part of our County Council.
- As a District Councillor I pride myself on my visibility and availability at all times in the community.
- To learn more about me, my interests, beliefs, and plans for our county, please visit the website shown at the bottom of this page.

Please feel free to contact me at any time to talk about your thoughts and ideas for Somerset.

Dear fellow

Liberal Democrat

As an active District Councillor I have spent a good deal of my time speaking to both staff and elected members to form my own opinion on the strengths and weaknesses of local government, and to take advice and guidance from specialists in a number of departments on how things could and should be improved.

With your vote and your continued support I will join other Lib Dems from across our county in bringing the administration back under control, both financially and to address social inequalities which are becoming increasingly prominent in our towns and villages.

I am asking for you to have faith in me, in our party, and in a fresh approach to regional politics. I am also asking you to join me in getting to work building a County Council fit for everybody living and working here, and for future generations who depend upon us to safeguard their communities.

Matt
